

LUIS NIEVES ACOSTA

PROFILE Computer Science student with a strong foundation in programming languages (C++, Python), algorithms, and data structures. Seeking internships or entry-level roles in software development, with a focus on web development and networks. Passionate about solving complex problems and contributing to innovative tech solutions.

WORK HISTORY

DR TECHNOLOGY SERVICES INC , MOBILE APPLICATION DEVELOPER
(August 2024 – Present)

Spearheaded the migration of a client's mobile application from Xamarin to .NET MAUI due to SDK deprecation and platform updates, ensuring continued functionality and support on newer devices. Engaged in the full lifecycle of the app development, including planning, coding, testing, and deployment, enhancing user interface and performance to meet modern usability standards. Coordinated closely with project stakeholders to gather requirements and deliver updates, ensuring alignment with client expectations and project timelines. This project is part of my bachelor's degree final course practice, integrating academic learning with real-world software development experience.

SHIFT SUPERVISOR - STARBUCKS, BARISTAS DEL CARIBE
(January 2017 – February 2023)

Managed store operations, including opening/closing and cash handling. Trained new employees and provided performance feedback. Utilized operational tools to optimize shift efficiency. Identified and communicated improvement opportunities to management.

FIELD REPRESENTATIVE - US FEDERAL CENSUS DECENNIAL BUREAU
(May 2021 - September 2021)

Conducted door-to-door and phone interviews to collect census data. Explained survey purposes, ensured accurate responses, and entered data efficiently. Maintained payroll records, including hours, mileage, and reimbursements. Completed in-person and online training to enhance data collection skills.

EDUCATION **BACHELOR IN COMPUTER SCIENCE, UNIVERSIDAD INTERAMERICANA**
(May 2025)

Approved courses: Data Structures and Algorithms, Software Engineering, Cloud Computing, Web Program with Database, Operating Systems, Artificial Intelligence, Teleprocessing & Networking

PROGRAMING C++, SQL, Java, Phyton, HTML, C# (Proficient), SQL Server Management Studio (SSMS)

SKILLS

Leader skills. Able to prioritize while maintain focus.
Excellent communication skills and analytical thinking.
Committed, punctual, respectful and an effective teammate.
Work well without supervision.
